

Exploring Life – part one
“Exploring the Meaning of Life”
Pastor Dale Campfield – Eastgate Community Church
August 23rd, 2009

Intro:

Matt 28:19 “Go and make disciples of all nations...”

ECC Process of Discipleship: Making an IMPACT...To Love...To Grow...To Serve

We have 3 priorities – To love...which is expressed in our Sunday morning celebration. To grow...which is expressed in our Connection Groups. To serve...which is expressed in our daily lives in the places we live, work and play; as well as through the local church. The vision of E.C.C. is to gather together weekly for corporate worship, loving God and each other; then to come together in small Connection Groups for discipleship and fellowship, and are regularly involved in reaching out to others with the love, acceptance, and forgiveness of Jesus Christ through community outreach. To Love...To Grow...To Serve!

Sermon Series Title: Exploring Life:
“To Boldly Go Where No Man Has Gone Before!”

Series Synopsis: We’ve reset our assumptions of Jesus Christ; climbed the mountain learning about the teaching of Jesus Christ; learned how to live life in the valley – now.... Let’s begin to explore life!

Life happens one season at a time; filled with individual events - positive and negative, known and unknown. In this six week series we shall boldly go where no man has gone before; to explore the good, the bad and the ugly as it pertains to each of our lives – in our quest to make an IMPACT for the Kingdom of God.

Part One: “Exploring the Meaning of Life”

Part Two: “Exploring Life after Death”

Part Three: “Exploring Life in the Supernatural”

Part Four: “Exploring a Life of Misery”

Part Five: “Exploring the Life of a Stunt Man”

Part Six: “Exploring the Power of the Sword”

TODAY - Part One: “Exploring the Meaning of Life”

If you were to ask me what my definition of a great life is, I would have to quote a Bible verse to you. It's the verse about David...

Acts 13:36

"David served God's purpose in his generation."

I don't know a better epitaph to have on a tombstone than to say you served God's purpose in your generation. You did the eternal but you did it in a contemporary way. That to me is the essence of a great life – the true meaning of life.

"He served God's purpose..." first you have to know what it is. "...and he did it in his generation."

What happens if I don't understand the purpose of life? What if I don't understand the meaning of life? I don't know what the point of it all is and I don't know that there's more to this life. What do I do? It causes all kinds of problems.

There's a book in the Bible written just for this purpose. It's called the book of Ecclesiastes. It's written by a guy named Solomon who was the wisest man who ever lived. He said this is what happens when you don't know the meaning of life. Particularly in Ecclesiastes 1 he says if you don't know the purpose of life there are five tragic consequences that are going to happen in your own life.

IF I DON'T UNDERSTAND THE MEANING/PURPOSE OF LIFE...

1. Life seems useless.

Ecclesiastes 1:2-4

"Life is useless, all useless. You spend your life working but what do you have to show for it? The world just stays the same."

If there's no purpose to life, why not sleep in? Why not just let somebody else do it? If nothing really matters, why bother? Why make the effort. Life is useless if I don't see a purpose to it.

2. Life seems tiresome.

We seem to be just going in circles.

Ecclesiastes 1:4-8

"The sun rises and goes down. The wind blows round and round and back again. Every river flows into the sea then the water returns to where the river began and starts all over again. Everything leads to weariness."

When you don't know that there's a purpose in life, life just seems like we're going in circles. It gives three examples -- there's the rotation of the earth, the sun goes up and down; there's the swirling of the wind; there's the cycle of rain and evaporation. It seems like an endless cycle. Just about the time you get the Christmas lights put away it's time to get them out again. We're on this treadmill.

Do you ever feel like you're on a treadmill? You're using a lot of energy, a lot of activity in your life, but there's no progress. The fact is, you can win the rat race but you're still a rat. If you don't have a purpose in life, life seems useless and life seems tiresome.

Business Week recently did a study to find out what is the number one answer when you ask people, "How you doing?" The number one answer today is, "I'm tired."

3. Life seems unfulfilling.

Ecclesiastes 1:8-10

"No matter how much we see, we're never satisfied; no matter how much we hear, we're not content [movies, music] History merely repeats itself."

When we don't see a point to something the fact is we get restless. When you don't see the point to something you get restless, antsy, you can't stay in your seat. You come late, leave early. We use the zapper on tv. The average human being will change channels with the zapper 325,000 in his/her life. (Some of you far, far more of that. That's an annual number for you!) But we get restless when we don't see a point to something. Life is useless, tiresome, unfulfilling.

4. Life seems insignificant.

Ecclesiastes 1:11

"No one remembers what has happened in the past, and no one in days to come will remember what happens between now and then."

Fame is fleeting. You break a record, and yours is going to be broken next week. He's talking here about the surety of obscurity. Nobody's really going to remember you. We all want to be significant but it doesn't happen. Have you ever been to a class reunion? That's a humbling experience. All the heros are now zeros.

Regardless of your accomplishments, you're going to be forgotten. If you went to college, my guess is that every building on your college campus had somebody's name on it. Did it make any difference to you? No. You couldn't care less. You never did any research to find out who those people were because the only people who care about having their name on a building are the people who give the big bucks to put their name on a building. Nobody else could care! The fact is, we don't remember. Life seems insignificant when you don't have a purpose.

5. Life seems uncontrollable.

Ecclesiastes 1:15

"You can't straighten out what is crooked and you can't count things that aren't there!"

That's obvious. Have you ever tried to straighten out a relationship that just wouldn't straighten out? It's tough. Have you ever been baffled by a problem that you couldn't fix? One of the great frustrations of life is that there are some things I just can't fix. And it's true with you too. There are some things you just cannot control. The most important things in life are things you cannot control. You didn't control when you were born, when you're going to die. You don't control a whole bunch of things in between that really do matter. You certainly can't control other people. You can't keep them in love with you. You can't make them fall in love with you. All kinds of things like that.

He says, this is what happens when you don't understand the purpose.

It's interesting to me that these five themes -- life is useless, seems tiresome, seems unfulfilling, seems insignificant, seems uncontrollable -- are the themes of many current popular books and movies. You see this over and over. Without a purpose, life seems pointless.

There's a guy named Hugh Morehead who 45 years ago began a hobby of writing to famous philosophers and scientists and authors and asking them, "What is the purpose of life?" He is now the chairman of the Department of Philosophy at Northeastern University in Illinois. The responses he got back were depressing at best. Isaac Asimov wrote back, "As far as I can see there is no purpose to life." Karl Jung, the Austrian psychiatrist, wrote, "I don't know what the meaning or the purpose of life is but it looks like as if there were something meant by it." Arthur Clark, who wrote 2001, wrote, "I'm afraid I have no concrete ideas of the purpose of life." Albert Ellis, the psychiatrist who invented RET therapy said, "As far as I can tell, life has no special or intrinsic meaning or purpose." Gerald Frank, "In the cosmic scheme, I see neither meaning nor purpose." Edward Gorny, "I doubt if there is one." William Gasp, "There is no meaning to life." Thomas Nagle, "I'm afraid the meaning of life still eludes me." With a sense of resignation Joseph Heller wrote, "I have no answers to the meaning of life and I no longer want to search for any."

These are tragic statements. A life without purpose is a life not worth living. It is no accident that as our culture has increasingly turned its back on God that coincidentally the suicide rate has gone up. When you remove God out of the picture, the options for meaning and purpose become very slim. So why not just check out? Suicide is now the second greatest killer of teenagers in America. Why hang around if there's no meaning or purpose to it? If you take God out of the equation, your options are extremely limited.

Many of you know about Bertrand Russell, the famous English philosopher. He was an avowed atheist. One thing I have to admire about Bertrand Russell, at least he was intellectually honest. He admitted that if you don't believe in God there are severe consequences to it. He said, "Unless you assume a God, the question about life's purpose is meaningless." Freud, who was also an atheist, said the same thing. "The idea of a purpose stands or falls with the religious system." In other words, if you don't accept that God exists you're on a dead end street.

The conclusion is this: If there is no God, then you are just a random accident, a freak of the revolutionary chain, a complex germ. Admit it. If you're not created by God, then your life doesn't matter and there is no significance to it. So if you get shot by a drive-by shooter why should we care?

This is why atheistic humanism is intellectually bankrupt. I can't understand why anybody with a brain would hold to that position. Atheistic humanism says you came from nowhere; it's a freak of nature. You're going nowhere. But right now, while you're alive, you have dignity and value. Do you see anything wrong with that picture? It doesn't make sense. It's absurd. It's irrational. If there is no God and you are just a freak of evolution, slime that happened to progress, if there is no afterlife of heaven and hell after you die then your life does have no meaning. You do not matter. And we shouldn't care at all about you because you're just a blob of cells. This is why it's very important that you understand what the purpose of life is.

What do you do? If you don't know the purpose of life, what do you do? You only have three options. The first option is to try to make up a purpose. Create a purpose on your own. That is called existentialism. Existentialism basically says try to find some kind of meaning in your existence. All kinds of people try to do this. Some people have concluded that the purpose of life is to just stay alive. That's a serious purpose! That's the survivalist view, that the purpose of life is to just stay alive.

There's another group of people that say the purpose of life is simply to perpetuate life. In other words, your whole purpose of life is just biological -- eat and reproduce. That the whole purpose of life is to have babies so that life goes on. I read this, this week, a quote from the rapper Ice Tea "The reason we are here is to reproduce. Chill out and reproduce. Keep the species alive." To me that seems like a pretty lousy goal in life, that your only goal in life is to create more life that itself will have no purpose except to create more life. It seems like, if that were true, why not stop the insanity?

There are other people who say the purpose of life is to search for meaning. That is hollow double speak. The purpose of life is to spend your life trying to find the purpose of life. They are very unsatisfying answers when you try to just make up the purpose of life. But that's what most people do. They don't do it in philosophical terms like existentialism. What they use is terms like, "I'm into..." "I'm into politics", "I'm into sports", "I'm into redecorating my house", "I'm into collecting certain things", "I'm into making money". Whatever. What we're doing is trying to create something to give meaning and purpose to our lives.

You were made, God wired you up in a way, to have something at the center of your life. It's supposed to be God. If God is not at the center of your life, there's a void there, and so we try to fill it with all kinds of other things. When God is not at the center of our lives, we fill it with something else. And that's commonly called an addiction. All of a sudden, we become so obsessed with this particular thing. You could be addicted to your work, sexual relationships, all kinds of different things, if God is not at the center of your life.

So you can make up a purpose. That doesn't work too well.

The second alternative is realize that there's no purpose to life, so just escape it. A lot of people try this. This is called hedonism. You try to find some kind of pleasure that dulls the pain because your life is meaningless. It can be a legal pleasure like going to Kings Island. Or television, or movies, some hobbies. Or it can be an illegal pleasure like illegal drugs or something else. But the whole idea is give me something to ease the pain to help me realize that when I lay my head down on the bed at night that I don't have any reason to get up tomorrow morning.

A lot of people try to escape. That is not a very good option either.

The third option which I highly recommend is figure out what the purpose of life is. The Bible is very clear about the purpose of life. It does not leave us in any doubt. When you open the pages of this book, it tells you exactly what God's purpose for creating humans is for and what God's specific purpose for your own life and how to find it.

Question - What is God's purpose/meaning for my life?

Ephesians 1:4-5

"Long ago, even before He made the world, God chose us to be His very own through what Christ would do for us..."

Notice that God was thinking about you before He even thought about the world. The world came later. God thought about you in His mind before He thought about the world.

"... His unchanging plan [purpose] has always been to adopt us into His own family by sending Jesus Christ to die for us."

Here's what God says: God made you to be a part of His family. If you want to know why you're here, God made you to be a part of His family. He made you to have a relationship with you. He made you to love you and to be loved back by Him. He wants a relationship. He wants you to be a part of His family. If you don't get this part, if you never develop a relationship of love with God through Christ while you're here on earth, you missed the whole point of life. You're not here just to make money, retire and die. God put you on this earth so He could have a relationship with you and you could learn to love Him and He wants you to be a part of His family.

Isn't everybody a part of God's family? No. Isn't everybody a child of God? No. Everybody is created by God, everybody is loved by God, but everybody is not a child of God. You only become a child of God when you say, "God, I want to be a part of Your family."

How do you get to be a part of His family? There's only one way. Faith. If I don't put my faith and trust in Jesus Christ, I'm not part of God's family. I am loved and I'm created by God, but I'm not a part of His family. I'm not a child of God.

Notice what the Bible also says. Not only does God want you to be a part of a family but He wants you to spend eternity with Him.

Ephesians 1:10

"This is His purpose: when the time is ripe, He will gather us all together to be with Him in Christ forever."

One day you're going to be with God, if you put your faith in Christ. His purpose is first that you get to know Him, that you be a part of His family, and that you spend all of eternity with Him. The Bible says that history is moving toward a climax. There is a grand scheme, a destiny. One day, God's going to take everybody that's put their faith in Him and bring them all together to spend eternity with Him.

I know you've heard about the Circle of Life. That's the great Buddhist concept and makes a fine song and Disney movie, but it's not Biblical. Life is not a circle. Life is linear. Life is moving toward a focus, a purpose, a climax. One day Christ is going to

come back. One day God's going to take everybody who's put his faith in Him over all the years and bring them together. Notice how long we're going to spend with Him. He says *"to be with him in Christ forever."* Circle "forever."

Here's the purpose. You could take forty philosophy classes and never get this.

Answer - Life is preparation for eternity.

Ecclesiastes 3:11

"He has planted eternity in the human heart."

That means you were made to last forever. You were made for eternity. You are going to live forever. Every human being is going to live forever one of two places -- with God or apart from God. We call them heaven and hell. You're either going to live with God for eternity or apart from God for eternity because you were made to last forever. When you die, this body dies, but you don't die. You go into eternity. And you're going to live forever with God or without God based on what you do here, your faith in Christ here.

It is a gross understatement for me to say that God has long range plans for you. Long, long range plans! He didn't just create you for the 60, 70, 80 or if you live to be 100 years here and that's it. God has long range plans for your life. So what is this life here? The Bible says it is preparation for eternity. What that means is that God is more interested in preparing you for eternity than He is in simply just making you happy here and now. Of course God wants you to be happy here and now because He's your heavenly Father. He loves you and wants you to be happy. But not at the expense of having you ill prepared for eternity. So He's far more interested in you being prepared for eternity. The fact is, this life is just the appetizer, the entre is coming. This life, if you were to put it on a scale, is like the first millimeter of a yardstick that goes on for millions and millions of miles into infinity. You will spend, at the most, probably 100 years on this planet. But you're going to spend millions, billions, ga-zillions of years in eternity. Which one do you think God's more interested in? Where you're going to spend the most time.

So, He put you on this earth for a reason. Why? To prepare you for what's coming up.

Life is dress rehearsal. This is the warm up act for the big event. This is kindergarten, preschool, the prep class for the way you're going to spend the rest of eternity. You must be prepared for eternity.

How do I do it? How do I use my life whatever years I've got here to prepare for eternity? Four ways:

HOW DO I PREPARE FOR ETERNITY?

1. GET TO KNOW JESUS CHRIST

HOW DO I PREPARE FOR ETERNITY?

1. GET TO KNOW JESUS CHRIST

That one's a no brainer. Establish a relationship with Him -- God's Son, Jesus Christ.

John 1:12

"To all who receive him, Christ gives the right to become children of God."

Notice: Not everybody's a child of God, just those who receive Him into their lives. God wants you to establish a relationship with Him.

How do I establish a relationship with God? If that's one of the goals, the purposes of my life, how do I do it? How do you establish a relationship with God?

You do it the same way you establish any relationship. If I want to have a relationship with my wife, Cathi, what do I have to do? First, I have to spend time with her. You cannot have a relationship with somebody you never spend any time with. Then I have to talk to her. And I have to listen to her. I have to see her in all kinds of situations and she has to see me in all kinds of situations and how we respond. Over time of talking, listening, spending time together, we develop a relationship.

That's the same way you develop a relationship with God. The second thing you've got to do is talk to have a relationship.

2. USE MY TIME IN VIEW OF ETERNITY

Colossians 4:5

"Use your time in the best way you can"

Time is our most precious resource. It's far more important than money. You can get more money but you can't get more time. You only have a certain amount of time you're allotted. In life, you can't make time, you can't borrow time, you can't save time, you can't extend time. You can only use it. We all have the same amount every week -- 168 hours. If you don't learn to manage your time well, you cannot manage anything else in your life because your time is your life.

God is watching to see how you manage your time on this earth to determine what He's going to have you do in eternity. He's giving you a little test --- this is the kindergarten. One of Satan's strategies is to just get you so busy doing unimportant things that you don't have time for the important things in life and that you don't spend any time preparing for eternity. Satan doesn't have to get you to sin. If he can't get you to be bad, he'll just get you to be busy.

Acts 20:24

"Life is worth nothing unless I use it for doing the work assigned me by the Lord Jesus."

You got to use your time in view of eternity. How much is this going to count five years from now, ten years now? How much is this going to count in eternity? Use my time in view of eternity.

3. USE MY TALENTS IN VIEW OF ETERNITY

3. USE MY TALENTS IN VIEW OF ETERNITY

That's how I prepare.

1 Corinthians 6:20

"Use every part of your body to give glory back to God."

There's a big misconception about heaven that even many of you have. You're Christians. Some of you think that when you get to heaven all you're going to do is sit around and eat bon-bons, kick back, wear a white robe and float on clouds. Neither of those things are in the Bible. Some of you think that you're going to play a harp in heaven. Angels might play harps but you're not. This is another misconception. You're not going to be an angel in heaven. Angels are angels. People are people.

So what are you going to do when you get to heaven? All those millions of years, what are you going to do? God has plans for you to serve in heaven. There's going to be things to do in heaven. Enjoyable things to do in order to serve God. What He's doing right now is He's giving you time on earth to practice serving. Why would God give you a place of serious service in eternity when you've done nothing in this world but live for yourself? You sat on the bench all through life and said, "I live for me," and then when you get to heaven you say, "OK, God, take me off the bench and put me on the A team. Let me serve You now." God's going to say, "You developed no serving ability, no serving skills."

You're not going to take any of your money into heaven. You're not going to take any of your possessions into heaven. And you're not going to take any of those other kinds of material things into heaven.

What are you taking to heaven? Only two things. Your character and your skills. Your attitudes, the things that God has put into your life. God is saying, "Now's the chance to get ready." This is pre-school. Are you doing anything in your life to use your talents for God? Or are you using all your talents on yourself? God says He wants you to serve Him.

I encourage you to get involved in the community in serving in some way. Our vision is to love, grow and serve. We also have one all church serving outreach every month that you can get involved in. There are lots of opportunities to serve. Don't wait for us to tell you what they are.... You search them out and learn to serve on your own!

4. USE MY TREASURE IN VIEW OF ETERNITY

4. USE MY TREASURE IN VIEW OF ETERNITY

Have you been watching the stock market this past year? People have lost millions of dollars. Many of you have lost money; I know, for you've told me your stories. The market may be in New York, but it's right here in Cincinnati too.... The stock market... This thing is a wild ride! Up and down! Hong Kong is making everybody dizzy and so Wall Street is having jitters. Everybody's asking, "What's the safest place to invest?" I'm going to tell you!

Let's suppose that Congress passed a law that some time in the next twelve months, the Japanese yen would become the official American currency. No longer would we use dollars but everybody would have to use yen to buy or sell things. Since the dollar would be worthless after the exchange date, to make it fair to everybody, nobody would know the exact day of conversion. We just know that some time in the next twelve months all of a sudden you'd have to start using yen to buy and sell and all of a sudden dollars are worthless.

If you knew that -- that it was going to come within the next twelve months but you didn't know when -- what would your strategy be?

If you are wise, what would you do is take most of your American currency and immediately convert it into Japanese yen so you wouldn't be caught with worthless dollars after that date. Knowing that they were going to be worthless, you would take most of what you got and immediately convert it. You would only hold on to enough American dollars to meet your daily needs. Because, on the exchange date, everything that was still left in dollars wouldn't amount to anything.

Jesus says, One day there's going to be an exchange day on your life. You are going to die. Only a fool would go all through life unprepared for something they know is inevitable. In America, the mortality rate is 100%.

You know what? We're all terminal. Everybody in this room is terminal. It's just a matter of time. We're all terminal. So there's going to be an exchange date. In eternity, the wealth that you leave on earth is going to be worthless. The only way what you have now can count in eternity is for you to begin converting it to the economy of eternity. Does that make sense? That's called storing up treasure in heaven.

How do you do that? How do you store up treasure in heaven?

1 Timothy 6:18-19

"Use your money to do good, always being ready to share whatever God has given you. By doing this, you will be storing up real treasure for yourselves in heaven. It is the only safe investment for eternity. And you will be living a fruitful Christian life down here as well."

I'm looking forward to that day. The exchange day. Because for 41 years I've been converting time and talent and treasure into the currency of eternity. Which bank are you storing up in? The bank of earth or the bank of eternity. You cannot take it with you. But you can send it on ahead. How do you send it on ahead? By investing it in people who are going there.

One of the most obscure verses, one of the strangest quotes of Jesus is...

Luke 16:9 God's investment strategy

"Use worldly wealth to make friends who will welcome you into eternal dwellings."

What in the world does that verse mean? What is He talking about? Obviously He's not talking about buying your way into heaven. Because you can't do that. It's a gift. It's free. You just accept it by faith. You can't pay your way into heaven.

He's saying the best strategy of investment is to take your money and help use it to get people into heaven so that when you get there they'll all welcome you and say, "Thank you for helping me get into heaven." That's the best strategy to use your money. Every time you give to help a missionary win somebody to Christ you're investing and storing up treasure in heaven. Every time you help a Christian organization put on a tv show or program you're helping get people into heaven. You're storing up treasure in heaven. Every time you help a church, plan a program, build a building, give to their ministries, you're helping people get into heaven. That's the best use of your money.

When you think in terms of whether I'm going to spend 100 years on earth and a gazillion years in heaven, when I get to heaven a lot of people are going to say, "Hey, Dale! I'm here. How's it going? I'm here because of you." I'm looking forward to that day. Is anybody going to welcome you in heaven? They will if you're investing your money in bringing people into heaven. "You were one of the pioneers to help bring me into heaven because that church, that ministry reached me for Christ."

Conclusion:

How are your investing?

On your notes... put an X on each of these where you are now and then put an 0 where you want to be in six months. Nobody can tell you what's right for you. This is between you and God.

In TIME. Put an X estimating what percent of your time each week is invested in spiritual growth, spiritual matters, developing ministry skills. We all have 168 hours a week. What

percent is being invested of my time in living in light of eternity? Put an 0 where you would like to be in six months.

How about TALENTS. What percent of your talents are you using investing in service, practicing serving and ministry? What percent do I want it to be in six months? Give yourself a goal.

How about your TREASURE? your money. How much of your money are you investing in God's kingdom? Where do you want to be for a goal as you grow as a believer? Where do you want to be six months from now?

Don't trade your life for temporary things. That's a waste. The most important decision in your life after you have accepted Christ is this, "Am I going to live for here and now or am I going to live in light of eternity?" That's the most important question once you've received Christ. If you're going to live for here and now -- "I just live for today!" -- there's a word for that. It's called secularism. It comes from the Latin word *seculum*. It means "to live here and now", to be only interested in what's happening today, to not worry about whether I'm investing in eternity. I am saying if you want to be wise, use as much as you can, of whatever you've got to prepare for eternity. Time, talent, treasure.

So if you want to know the meaning of life..... that it's!

You watch... You wait... You'll See!

Put a "X" where you are now Put a "O" where you want to be in six months
